## About This Game

### **The camera view is your best friend, and your worst enemy!**

Maneuver yourself through the levels while avoiding overlapping colors by changing your perspective.

A new epic puzzle game where the perspective of the camera changes everything. Do not let your body parts get in the same view as a wall with the same color, or you'll lose it! Puzzle your way through challenging and appealing surroundings and try to stay in one piece!

### **Change your perspective**

Avoid overlapping colors by changing your perspective. Just do not forget to look at the art as well, it is cool to look at. It is just a little bit less cool if you have to restart because of looking to the wrong color.

### **Different kind of puzzles**

In this puzzle game you will find different kind of puzzles. Try to figure out how you can pass it, just never forget the rules of the colors.
